Explosion in German Munitions Plant Kills Several Hundreds.

London, Dec. 5.—Destruction of a large ammunition factory at Halle, Prussian Saxony, by an explosion, with the loss of several hundred lives, is reported in a message from Kolding, Denmark, to Copenhagen, forwarded by Reuter's correspondent.

It is said a similar disaster was narrowly averted at Bogden, Silesia. The ammunition factory there, it is reported, was saved by the discovery that it had been undermined.

According to this account, which has not been confirmed, arrests have been made at Bogden. It is asserted discontented workmen are suspected in both instances.

War Aids Horse Thieves.

Muskogee, Ok., Dec. 6.—There is more horse stealing in Oklahoma now than has ever been known since statehood.

Sheriff Binion has reports of seven horses having been stolen in this county in the last week, and reports coming to him over the state are more numerous.

The high prices that are being paid for horses for shipment to Europe, and the ease with which they may be shipped out of the country without identification are responsible for so many thefts. It is said by members of the Oklahoma Anti-Horse Thief Association. The association has requested various papers in the state where it is believed that the thieves are hiding out.

Nevada, Mo., So Angelic Police Judge is a Luxury.

Nevada, Mo., Dec. 5.—Violations of the law have decreased so materially that Mayor Dulin and the City Council decided that a Police Judge has become a luxury instead of a necessity, and last night the Council passed an ordinance abolishing the office, which carried a salary of \$500.

A Justice of the Peace will be named to perform the duties of Police Judge and his remuneration will have to come through the medium of fees. Violations of the city's laws are so rare, Mayor Dulin says, that the fees won't be enough to buy chicken feed.

Among the army of persons who are consoling the Chicago physician for allowing a defective child to pass out of the world are many who have a right to congratulate themselves that they got by. We have only to look around us as we travel through life to find a constant stream of such cases. It is a sad thing to see a child born with a defect and then to see it die. It is a sad thing to see a child born with a defect and then to see it die. It is a sad thing to see a child born with a defect and then to see it die.

covery. The Connecticut left Port au Prince last week with more than fifty marines whose terms of enlistment had expired and with 29 wounded and sick marines and sailors.

Defends Low Wool Tariff.

Pendleton, Ore., Dec. 4.—The rag man, not a low tariff, is the enemy of the wool grower, declared Charles Coopey of Portland, who addressed the annual convention of the Oregon Wool Growers Association here today. He asserted that the truthful branding of fabrics soon would at least double the wool production of the Northwest.

"What wool men need," he said, "is not tariff protection, but protection against old rags, the old rag man being the chief competitor of the wool grower. The world's supply of fleece wool is only 27 per cent of that which is sold for all-wool products."
